July 3, 1996

Mr. Larry Maycock
Box 98
Minersville, Ut 84752

Dear Larry:

This spring while the Milford water users were trying to decide which regulation alternative to select, our office started its salary payments to the commissioners who are considered seasonal. At that time you were on the list of those who were to be paid from April through October.

By the end of April the decision had been made to regulate by irrigated acreage and you decided that you did not want to fill the commissioner position for 1996. However, by that time you had received two checks in April and then one later in May. You returned the May check to the division.

Keith James and I have discussed the situation of the checks that were sent to you in April. There was no commissioner work performed, so we request that you refund to the distribution system the salary that was paid to you. This can be done by sending a check to the State Engineer with a note that it is a refund of the April salary.

We appreciate the help that you gave us last year. We regret that things did not work out for you to work as the commissioner this year, but we wish you success in your enterprises. If you have any questions about this letter, please contact me.

Sincerely,

Lee H. Sim, P.E.

Assistant State Engineer
for Adjudication and Distribution
